

BEWARE OF THE DOG SLED

*FIVE USEFUL TIPS/PIECES
OF INFORMATION WORTH
KNOWING ABOUT SLED DOGS

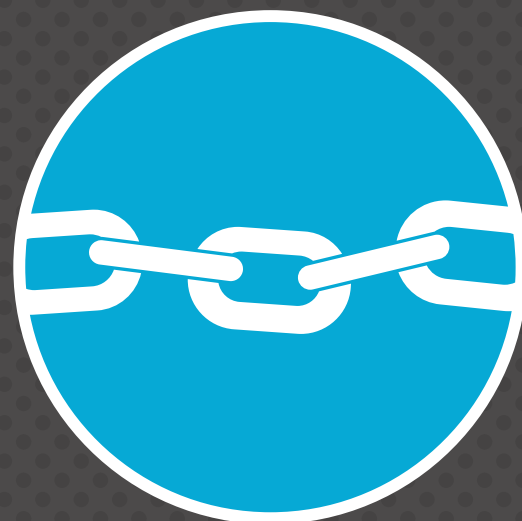

DISTANCE

Please keep a safe distance from the adult dogs. Be aware of how much slack their chain has

WORKERS

Sled dogs are working dogs and live accordingly. They are therefore not equipped with any of the 'people skills' you may connect

CHAINS

Sled dogs have a wild side, so there's a pretty good reason why they're chained, other than to prevent them from wandering off, of course

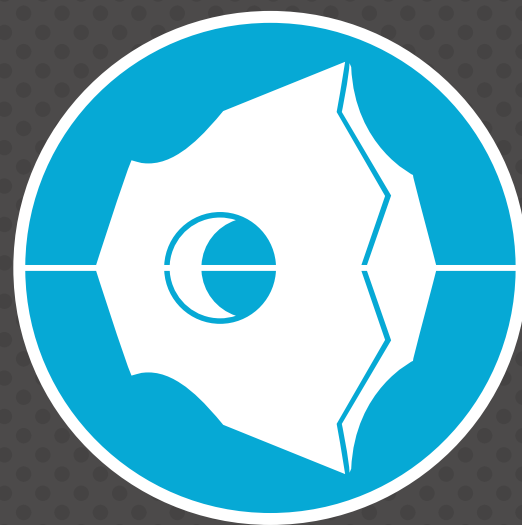

PETTING

The Musher is master. Never try to pet a chained sled dog without first asking the Musher

PUPS

They may be cute and fluffy – and actually safe to pet – but they are oh so dirty. Remember to wash your hands if you touch them

ENJOY

With all that said, dogs are best experienced from the sled. We hope you enjoy your stay!
